& NATURAL HISTORY GROUP

## **BULOKE BULLETIN NO. 259, APRIL, 2018**

Our antiques and collectables shop is still going very well, bringing in regular money for the History group. We sell something every day that it is open and the honesty system where people come into the archives to pay is working very well. One of our exciting sales was an old push mower with a wooden handle which Mary found in the shed and had the Men's shed clean up. We were offered \$50 for it within a day of it being on display and we can report that it went to a good home in Donald and actually works.

### **Enquiries for the month**

Roger Gabbe, the grandson of Arthur Richards, wished to investigate his ties with the Litchfield area. Arthur was a brother of George, Charles, Bert, Ethel Kirk Ada and Linda. Roger's mother was Norma Richards. He is interested in meeting his cousins. A basic Richards family tree was sent to him plus the information in the Archives Richards file.

Peter Freund from the Ballarat Art Gallery wished to know when the Cope Cope Station Homestead (Owned by R.E. Pilgrim) and the Banyenong West Homestead were demolished. He rang before Easter and wanted an immediate reply. I was unable to help at that stage but can anyone assist? I'm sure that it is probably not too late to get it right.
